LESSON OBJECTIVE:

To understand the difference between formal and informal language

By the end of the lesson you will:

Satisfactory

I will identify the similarities and differences between formal and informal speech

Good

I will distinguish between formal and informal phrases

Excellent

I will create an informal and formal interview/meeting

Formal language is words or phrases that you use when you want to sound official and you would use it with people you don't know.

Informal language is words or phrases that you would use everyday with your friends and family or people you know.

Imagine you have met someone for the first time; what would you say if you were using formal language? What would you say if you were using informal language?

The background features a repeating pattern of blue question marks. A single, larger red question mark is positioned in the center of the slide, partially obscured by the text boxes.

QUIZ TIME!!!

HOW COULD YOU CHANGE IT?

Create a formal and informal meeting

In pairs, act out a formal and then informal meeting.

Remember to use the right words and phrases when writing the script.
